# SUBJECT INDEX

## Subject Index 2000

### A

#### Abrasion

- air, Nov./Dec. 267-268
  - vs.* acid etching before bracket bonding, effect on bond strength, May/June 135-136
- microabrasion and resin-based composite in treatment of tooth discoloration, July/Aug. 156-157
- pumice, of new sealants, Mar./Apr. 91-92
- review of, Jan./Feb. 10

#### Abscess, periodontal

- acute, azithromycin for, Nov./Dec. 287
- literature review, Nov./Dec. 266

#### Abutment

- conical, effects on resistance to bending force, Sept./Oct. 230
- technique, customized, allows reproduction of peri-implant soft tissue contours, Sept./Oct. 209

#### AccessPost, retention value of, Nov./Dec. 270

#### Acetaminophen plus codeine, *vs.* Vicoprofen after third molar extraction, Sept./Oct. 239-240

#### Acid etching, *vs.* air abrasion before bracket bonding procedures, effect on bond strength, May/June 135-136

#### Acinic cell carcinoma, of accessory parotid gland, Sept./Oct. 235

#### Acrylic gingival prosthesis, to replace missing periodontal tissue, Jan./Feb. 17

#### *Actinomyces*, associated with pericoronitis of lower third molar, Sept./Oct. 213

#### Adenoma, pleomorphic

- parotid gland, accessory, Sept./Oct. 235
- salivary, in adolescent, Nov./Dec. 278-279

#### Adhesive(s)

- bonding systems, one-bottle, reliability of, Mar./Apr. 62

#### dentin

- bond strengths of, microtensile, comparative study, Sept./Oct. 233
- effects on fluoride release from glass ionomer cements and resin composite, Sept./Oct. 232
- enamel-dentin, effect in reattachment of fractured crown fragments, May/June 143-144
- filled, effect on bonding strength to dentin, Nov./Dec. 275
- liners, clinical performance of restorations with, Nov./Dec. 260-261

#### materials to reattach tooth fragments after fracture of anterior teeth, Nov./Dec. 256-257

- polyurethane, combined with dual-curing luting cement for provisional veneers, Jan./Feb. 30-31
- pulp capping with
  - evidence does not support, Sept./Oct. 212
  - histologic study, Jan./Feb. 46
  - pulp healing after, Nov./Dec. 292
- resin liner under amalgam restorations, effect on long-term performance, July/Aug. 193

#### Adjustment procedure, internal, for castings, effect on marginal fit, Nov./Dec. 290

#### Adolescents

- caries in, approximal, prevention with fluoride and chlorhexidine varnishes, July/Aug. 189-190
- obesity in, genetic and behavioral components of, Sept./Oct. 203
- salivary adenoma in, pleomorphic, Nov./Dec. 278-279

#### Aerosol reduction device, Jet Shield, Jan./Feb. 29

#### Aesthetic-Line, bond strength of, July/Aug. 187-188

#### Age discrimination, in dental practices, May/June 125

#### Agensis, tooth, molecular genetics approach to, Nov./Dec. 278

#### Aging teeth, conditions of, prevention and treatment, Sept./Oct. 204

#### AIDS

- (*See also* HIV)
- associated oral ulcers, thalidomide for, May/June 107
- patients, dental students show reduced bias against, July/Aug. 154-155

#### Air

- abrasion, Nov./Dec. 267-268
  - vs.* acid etching before bracket bonding, effect on bond strength, May/June 135-136
- polisher, Jet Shield device reduces aerosols generated by, Jan./Feb. 29
- /water syringe
  - disposable tips for, Mar./Apr. 83
  - water line bacteriologic filters most effective when placed close to, Mar./Apr. 82-83
- Alcohol disinfectant, glove permeability by, May/June 130

#### Alcoholic beverages, effects on composite wear, May/June 131

#### Alcoholization, for trigeminal neuralgia, July/Aug. 165

#### Alert, shear bond strength to dentin, May/June 144-145

#### All-Bond 2

- effect on crown retention, July/Aug. 182-183
- effectiveness in reattachment of fractured crown fragments, May/June 143-144
- hybrid layer and, Mar./Apr. 63
- pulp capping with, histologic study, Jan./Feb. 46

#### All-Bond DS, without etching, effect on dentin permeability, July/Aug. 165-166

#### All-ceramic

- crowns, endodontic access in, effect of bur type on, July/Aug. 176-177
- resin-bonded fixed partial dentures, load direction affects fracture strength in, Sept./Oct. 240
- restorations, understanding and use of, Mar./Apr. 64-65

#### Alpha 1-blockers, for hypertension, dental aspects of, May/June 113

#### Alveolar

- bone height changes after chlorhexidine chip in scaling and root planing, May/June 141
- ridge augmentation, distraction osteogenesis using implants for, Mar./Apr. 84-85

#### Amalgam restorations

- bonded
  - for incomplete tooth fracture, May/June 121
  - long-term clinical performance, July/Aug. 193
- Class I and II, bonding not worthwhile for, Mar./Apr. 94
- complex, cuspal coverage/replacement reduces tooth fracture risk in, May/June 145-146
- longevity, need for better studies of, Mar./Apr. 71
- vs.* preformed metal crowns, for primary molars, May/June 106

#### Amoxicillin, for periodontal disease, May/June 111

#### Anesthesia

- dental hazards of, risk factors, prevention, and management, July/Aug. 185
- topical, Mar./Apr. 56
- Anesthetic reaction, local, contact dermatitis due to component of rubber gloves mistaken for, Mar./Apr. 67

- Angina pectoris, and toothache, Jan./Feb. 16
- Angioma, acquired tufted, of lower lip, July/Aug. 183
- Angiotensin-converting enzyme inhibitors, for hypertension, dental aspects of, May/June 113
- Angular cheilitis, in type 1 diabetics, Sept./Oct. 214
- Antibiotics
- for abscess, periodontal, Nov./Dec. 266
  - macrolide, long-acting, clinical use of, Jan./Feb. 18
  - for periodontal disease, May/June 111
  - postoperative, no effect on osseous healing in GTR with membrane design that prevents bacterial contamination, Jan./Feb. 38
  - resistance of subgingival microflora in periodontitis to, increased, May/June 138
- Anticoagulants, and dental surgery, debunking myths of, Mar./Apr. 66
- Anti-inflammatory drugs, nonsteroidal, combined with opiates for pain in endodontic emergency patients, Jan./Feb. 35-36
- Antimicrobials (see Antibiotics)
- Antirotation resistance form, effect on screw loosening in single implant-supported crowns, July/Aug. 179-180
- Apex locators, electronic, effect on length quality of final endodontic obturation, Sept./Oct. 228
- Apexification, of traumatized tooth without treatment, case report, July/Aug. 189-190
- Aphthous stomatitis, recurrent, diagnosis and treatment, May/June 109-110
- Apical transportation, adverse effect on root canal seal, July/Aug. 177-178
- Apnea, sleep
- cephalometric variables differ by race among patients with, July/Aug. 188
  - mandibular positioning devices for, anterior, noncompliance and complications, Sept./Oct. 244
- AquaSil, Jan./Feb. 20
- Argon laser, to light-cure composites, Jan./Feb. 11
- Ariston pHc
- fluoride release from, effect of dentin adhesives on, Sept./Oct. 232
  - methacrylic acid release from, Sept./Oct. 210-211
- Artglass, color stability of, May/June 130-131
- Arthritis, rheumatoid, and periodontal disease, July/Aug. 184
- Arthroscopic treatment, of temporomandibular joint derangements, July/Aug. 196
- Articaine, for dental pain, July/Aug. 154
- Aspiration, of foreign bodies, preventing and managing, Mar./Apr. 59
- Aspirin, low-dose, stopping before oral surgery, May/June 114
- Astra Tech conical abutment, effect on resistance to bending force, Sept./Oct. 230
- Atheromas, carotid, in type 2 diabetics, panoramic radiographs of, July/Aug. 187
- Atrophic mandible, fracture after implant placement, Nov./Dec. 280-281
- Attachment
- ball or bar, implant-supported overdentures with, technical complications of, May/June 129
  - loss, periodontal, and systemic osteopenia, Jan./Feb. 39
- Attire, high-tech, Mar./Apr. 75
- Attrition, review of, Jan./Feb. 10
- Avulsed teeth, management, May/June 103
- Axial bevel technique, for posterior composite restorations, July/Aug. 169-170
- Azithromycin
- clinical use of, Jan./Feb. 18
  - for periodontal abscess, acute, Nov./Dec. 287
- ## B
- Baclofen, for trigeminal neuralgia, July/Aug. 165
- Bacteremia, incidence after orthodontic banding, Mar./Apr. 87
- Bacteria
- associated with pericoronitis of lower third molar, Sept./Oct. 213
  - water line, electrochemically activated water may reduce, Jan./Feb. 31
- Bacterial
- contamination, GTR with membrane design that prevents, no effect of postoperative antibiotics on osseous healing in, Jan./Feb. 38
  - endocarditis, prophylaxis with long-acting macrolide antibiotics, Jan./Feb. 18
- Bactericidal effect, of essential oil mouthrinse, July/Aug. 167-168
- Bacteriologic filters, water line, most effective when placed close to air/water syringe, Mar./Apr. 82-83
- Ball attachments, technical complications of implant-supported overdentures with, May/June 129
- Banding, orthodontic, bacteremia incidence after, Mar./Apr. 87
- Bar attachments, technical complications of implant-supported overdentures with, May/June 129
- Barrier membranes, ePTFE, tetracycline coating of, Jan./Feb. 38-39
- Beclomethasone, topical, for chronic ulcerative stomatitis, May/June 107
- Behavioral components, of obesity, Sept./Oct. 203
- Belleglass HP, color stability of, May/June 130-131
- Bending force, resistance to, effects of conical abutments on, Sept./Oct. 230
- Beta-blockers
- drug interaction with vasoconstrictor, Mar./Apr. 90-91
  - for hypertension, dental aspects of, May/June 113
- Beta-carotene, for oral leukoplakia, response maintained for 1 year, Mar./Apr. 86-87
- Beta-quartz glass-ceramic insert restorations, performance of, May/June 146
- Bevel technique, axial, for posterior composite restorations, July/Aug. 169-170
- Beverages
- alcoholic, effects on composite wear, May/June 131
  - erosive, avoidance of toothbrushing immediately after exposure to, Jan./Feb. 41
- Biocompatibility, of Vitrebond with pulp, July/Aug. 180
- Bioplat HTR Synthetic bone, for ridge preservation in avoidance of bone loss after extraction, Nov./Dec. 279
- Biopsy
- brush
    - oral, transepithelial, Jan./Feb. 13  - OralCDx analysis, in detection of early oral cancer, Jan./Feb. 33-34
  - incisional, of non-Hodgkin's lymphoma presenting as periodontal disease, Sept./Oct. 237
  - scalpel, in oral cancer, OralCDx analysis of brush biopsy indicates need for, Jan./Feb. 33-34
  - in stomatitis, recurrent aphthous, May/June 109
- technique, minimally invasive, for periapical lesions, Mar./Apr. 57
- Biotene mouthwash and toothpaste, in Sjögren's syndrome, Jan./Feb. 15
- Bisphenol A, in dental materials, use in children, May/June 114-115
- Blades, laryngoscope, dental damage from, July/Aug. 185

- smell in, impaired sense of, Mar./Apr. 66-67
- taste in, impaired sense of, Mar./Apr. 66-67
- women, systemic osteopenia and periodontal attachment loss in, Jan./Feb. 39

Electrical conductivity, in detection of caries, Jan./Feb. 14

Electrochemically activated water, in dental unit water lines, Jan./Feb. 31

## Electronic

- apex locators improve length quality of final endodontic obturation, Sept./Oct. 228
- Caries Monitor for early detection of occlusal caries, July/Aug. 156

Eminectomy, for recurrent temporomandibular joint dislocation, Nov./Dec. 291

Emotions, effect on cancer survival, Jan./Feb. 48

## Enamel

- bond strength to resin-modified glass ionomers, no effect of conditioning time on, July/Aug. 162
- dentin adhesives, effect in reattachment of fractured crown fragments, May/June 143-144

erosion in bulimia nervosa, May/June 108

Endocarditis, bacterial, long-acting macrolide antibiotic prophylaxis for, Jan./Feb. 18

## Endodontic

- access in all-ceramic crowns, effect of bur type on, July/Aug. 176-177
- emergency patients, pain in, NSAID/opiate combination for, Jan./Feb. 35-36
- instruments, broken, new removal technique, Sept./Oct. 229
- lesions, use of fiberscope to examine, Jan./Feb. 8
- obturation, final, electronic apex locators improve length quality of, Sept./Oct. 228
- retreatment, surgical *vs* nonsurgical, healing rate after, Mar./Apr. 80
- sealer viscosity, higher, and higher intracanal pressure, Sept./Oct. 229-230

Epidermal growth factor levels, salivary, and severity of radiation-induced oral mucositis, Nov./Dec. 282

Epilar Highlight, Jan./Feb. 21

## Epinephrine

- /articaine, for dental pain, July/Aug. 154
- injection, intraosseous, systemic effects of, Sept./Oct. 215

Er,Cr:YSGG laser, for caries removal and cavity preparation, Sept./Oct. 210

## Erosion

- review of, Jan./Feb. 10
- risk factors for, July/Aug. 176
- Erosive food/beverage, avoidance of toothbrushing immediately after exposure to, Jan./Feb. 41

Eruption, incomplete passive, crown lengthening in patient with, Sept./Oct. 217-219

Erythromycin, for bacterial endocarditis prophylaxis, Jan./Feb. 18

Essential oil mouthrinse, bactericidal effect of, July/Aug. 167-168

## Esthetic

- management of dental midline problems with restorative dentistry, Mar./Apr. 57-58
- outcome
  - of conventional composites *vs* newer tooth-colored materials, Jan./Feb. 44
  - of titanium-ceramic crown systems, Jan./Feb. 41-42

## Estrogen

- like compounds in dental materials, use in children, May/June 114-115
- supplementation in postmenopausal periodontal patients with low bone density, Jan./Feb. 39-40

Etched porcelain veneer restoration, of primary teeth in adult dentition, Sept./Oct. 222

## Etching

- acid, *vs* air abrasion before bracket bonding procedures, effect on bond strength, May/June 135-136
- of dentin before bonding, Mar./Apr. 63

## Ethics

- of dating patients, Jan./Feb. 23
- of sexual harassment of dental staff members, Mar./Apr. 77

Evaporation, effect on qualities of water-based luting agents, Sept./Oct. 235

EXCITE, reliability of, Mar./Apr. 62

## Extraction

- bone loss after, ridge preservation therapy avoids, Nov./Dec. 279
- decision process, Mar./Apr. 58
- of impacted teeth, Sept./Oct. 206
- molar, third
  - need for, inaccuracy of estimates, May/June 133
  - symptoms after, patient survey provides details on, Mar./Apr. 85-86
  - Vicoprofen after, Sept./Oct. 239-240

## F

## Face

- muscle pain with anterior mandibular positioning devices for sleep apnea, Sept./Oct. 244

pain, myofascial, and comorbid fibromyalgia, prognosis, May/June 137

Febrile neutrophilic dermatosis, acute, palatal ulceration in, July/Aug. 164

Fees, building patient trust in fairness of, Mar./Apr. 79

Fiberscope, use to examine endodontic/periodontal lesions, Jan./Feb. 8

Fibrinogen levels, and periodontal disease, May/June 140

Fibroma, irritation, in type 1 diabetics, Sept./Oct. 214

Fibromyalgia prognosis, with comorbid myofascial face pain, May/June 137

Files

- K-, in removal of broken endodontic instruments, Sept./Oct. 229
- nickel-titanium, examination before and after use, May/June 127
- NiTi taper, rotary, canal preparation errors with, Nov./Dec. 273

Filled adhesives, effect on bonding strength to dentin, Nov./Dec. 275

Filling cements, root-end, bone reactions to (in guinea pig), Sept./Oct. 227-228

Filters, water line bacteriologic, most effective when placed close to air/water syringe, Mar./Apr. 82-83

Fire damage, in dental practice, preventing, Sept./Oct. 223

Fissured tongue, in type 1 diabetics, Sept./Oct. 214

Fissures, occlusal, laser treatment of, July/Aug. 161

Flexi-Post, retention value of, Nov./Dec. 270

Flowmetry, laser Doppler, in assessment of vasoconstrictive effect of smoking in periodontal tissues, July/Aug. 166

Fluocinonide, topical, for recurrent aphthous stomatitis, May/June 109, 110

Fluor Protector

- evidence supports use of, July/Aug. 178
- prevention of approximal caries with, July/Aug. 189

Fluoride

- release
  - from core materials, Nov./Dec. 276-277
  - from glass ionomer cements and resin composites, dentin adhesives reduce, Sept./Oct. 232
- releasing products release ion in different amounts but similar patterns, July/Aug. 181-182
- varnishes
  - evidence supports use of, July/Aug. 178
  - prevention of approximal caries with, July/Aug. 189

Fluoro Bond/Lite-Fil IIA, bond strength of, Nov./Dec. 260

Fluorocore, fluoride release from, Nov./Dec. 276-277

Flurbiprofen/tramadol, for pain in endodontic emergency patients, Jan./Feb. 35-36

Folic acid supplements, effect on homocysteine levels, Mar./Apr. 74

Food, erosive, avoidance of toothbrushing immediately after exposure to, Jan./Feb. 41

Force, bending, resistance to, effects of conical abutments on, Sept./Oct. 230

Forceps, flexible microsurgical biopsy, to retrieve periapical tissue, Mar./Apr. 57

Foreign bodies, ingestion and aspiration of, Mar./Apr. 59

Fracture

- crown, reattachments of fragments after, effectiveness of enamel-dentin adhesives in, May/June 143-144
- mandible, atrophic, after implant placement, Nov./Dec. 280-281
- strength in all-ceramic resin-bonded fixed partial dentures, effect of load direction on, Sept./Oct. 240
- tooth
  - anterior, in removable dentures, immediate repair technique, Sept./Oct. 208
  - anterior, management, Nov./Dec. 256-257
  - in children, direct pulp capping for, July/Aug. 157
  - incomplete, bonded amalgam restorations for, May/June 121
  - incomplete, prevention with bonded inlays, Mar./Apr. 70-71
  - risk in complex amalgam restorations, cuspal coverage/replacement reduces, May/June 145-146

Frame, rigid metal, technique of adding to mandibular complete denture, July/Aug. 168-169

Fruits, colorful, nutritional benefits of, Jan./Feb. 26

Fuji II LC

- esthetic outcome, Jan./Feb. 44
- fluoride release from, July/Aug. 181-182; Nov./Dec. 276-277
- effect of dentin adhesives on, Sept./Oct. 232

Fuji IX GP, fluoride release from, effect of dentin adhesives on, Sept./Oct. 232

## G

Gap formation, in direct composite restorations, effect of curing lights on, Jan./Feb. 20-21

Genetic components, of obesity, Sept./Oct. 203

Genetics, of tooth agenesis, Nov./Dec. 278

Gingiva

- embrasures, open, blockout technique for impressions of teeth with, Jan./Feb. 18-19
- emergence profile, simple technique for registration of maximal intercuspal position and, Nov./Dec. 268-269
- overgrowth risk increases with cyclosporine A dose, Nov./Dec. 287-288
- prosthesis to replace missing periodontal tissue, Jan./Feb. 17
- recession
  - aging and, Sept./Oct. 204
  - GTR or connective tissue graft for, results, May/June 139
- subgingival microflora in periodontitis, increased antibiotic resistance of, May/June 138
- surgery in transplant patients, need for supplementary steroids in, Jan./Feb. 40

Glass

- ceramic insert restorations, beta-quartz, performance of, May/June 146
- fibers, bonded composite inlay fixed partial dentures reinforced with, 1-year results, Mar./Apr. 93

ionomer(s)

- with cast full-coverage crowns, Weibull analysis of performance of, Sept./Oct. 233-234
- fluoride release from, dentin adhesives reduce, Sept./Oct. 232

Miracle Mix silver-reinforced, retention value of, Nov./Dec. 270

in primary tooth restorations, Mar./Apr. 68-69

qualities of, effect of evaporation on, Sept./Oct. 235

resin-modified, conditioning time does not affect enamel bond strength to, July/Aug. 162

resin-modified, qualities of, effect of evaporation on, Sept./Oct. 235

resin-modified, with cast full-coverage crowns, Weibull analysis of performance of, Sept./Oct. 233-234

Glossitis, median rhomboid, in type 1 diabetics, Sept./Oct. 214

Gloves

- inversion of, prevents contamination and saves money, Nov./Dec. 258-259
- permeability by alcohol disinfectant, May/June 130
- rubber, contact dermatitis due to component in, local anesthetic reaction mistaken for, Mar./Apr. 67

Gluma Desensitizer, effect on crown retention, July/Aug. 182-183

Gluma One Bond, microtensile bond strength of, Sept./Oct. 233

Gold

- cast, restorations, longevity, need for better studies of, Mar./Apr. 71
- restorations, prevalence of gold sensitivity in patients with, Mar./Apr. 84

Graft, connective tissue, for gingival recession, results, May/June 139

Grafting, periodontal bone, via minimally invasive surgery, Mar./Apr. 89

Growth

- factor levels, salivary epidermal, and severity of radiation-induced oral mucositis, Nov./Dec. 282
- mandibular, pattern of, and results of treatment for Class III malocclusion, Nov./Dec. 282-283

## GTR

for gingival recession, results, May/June 139

when membrane design prevents bacterial contamination, effect of postoperative antibiotics on osseous healing in, Jan./Feb. 38

Guidelines

- clinical practice, for Sjögren's syndrome, Jan./Feb. 15
- for imaging of potential implant sites, Sept./Oct. 242-243

## H

Hairy leukoplakia, in HIV, effect of protease inhibitor therapy on, May/June 134

Hand instrumentation, and ultrasonic device to remove broken endodontic instruments, Sept./Oct. 229

- Handpiece**  
 Kavo, longevity of, Jan./Feb. 28-29  
 manufacturers, how they need to improve their products, Jan./Feb. 7-8  
 Star, longevity of, Jan./Feb. 28-29
- Harassment, sexual, of dental staff members,** Mar./Apr. 77-78
- Healing**  
 osseous, in GTR with membrane design preventing bacterial contamination, no effect of postoperative antibiotics on, Jan./Feb. 38  
 pulp, after capping with adhesive materials (in rat), Nov./Dec. 292  
 rate after surgical *vs.* nonsurgical endodontic retreatment, Mar./Apr. 80
- Health, oral, of children, physician's viewpoint on,** Nov./Dec. 252-253
- Hearing loss, fabrication of custom earplugs to prevent,** Mar./Apr. 78
- Hear**

- of resin luting systems, Mar./Apr. 63-64

*Streptococcus milleri*, associated with pericoronitis of lower third molar, Sept./Oct. 213

Stress

- distribution, treatment of noncarious cervical tooth lesions improves, July/Aug. 194
- polymerization, effect of two-step curing on, Nov./Dec. 276

Students, dental, show reduced bias against AIDS patients, July/Aug. 154-155

Subgingival microflora, in periodontitis, increased antibiotic resistance of, May/June 138

Super-EBA

- bone reactions to (in guinea pig), Sept./Oct. 227-228
- as retrofill material, Nov./Dec. 272-273

SureFil

- methacrylic acid release from, Sept./Oct. 210-211
- restorations with, flowable resin liner prevents microleakage in, Nov./Dec. 277

Surgery

- dental, and anticoagulants, debunking myths of, Mar./Apr. 66
- minimally invasive, periodontal bone grafting via, Mar./Apr. 89
- oral, stopping low-dose aspirin before, May/June 114

Surgical Simplex B bone cement, as retrofill material, Nov./Dec. 272-273

Swallowed removable partial denture, case report, Jan./Feb. 19

Sweet's syndrome, palatal ulceration in, July/Aug. 164

Syringe, air/water

- disposable tips for, Mar./Apr. 83
- water line bacteriologic filters most effective when placed close to, Mar./Apr. 82-83

## T

Take 1, Jan./Feb. 20

Targis, color stability of, May/June 130-131

Taste, impaired sense in elderly, Mar./Apr. 66-67

Teeth

- adjacent to Class II preparations, iatrogenic damage to, May/June 132
- aging, conditions of, prevention and treatment, Sept./Oct. 204
- anterior, calcified, endodontically untreated, conservative approach to whitening of, Sept./Oct. 207
- avulsed, management, May/June 103
- brushing of, avoidance immediately after exposure to erosive food/beverage, Jan./Feb. 41
- cracked tooth syndrome, prevention with bonded inlays, Mar./Apr. 70-71
- discoloration
  - aging and, Sept./Oct. 204
  - treatment with microabrasion and resin-based composite, July/Aug. 156-157
- fracture (see Fracture, tooth)
- impacted, treatment, Sept./Oct. 206
- intranasal, in children with cleft palate, Nov./Dec. 284
- lesions, noncarious cervical, effect of treatment on stress distribution, July/Aug. 194
- loss of, interleukin-1 and smoking status in prediction of, May/June 112
- pain
  - with anterior positioning devices for sleep apnea, Sept./Oct. 244
  - phantom, diagnosis and treatment, Nov./Dec. 264
- preparation
  - minimal, Nov./Dec. 267
  - system, laser-powered hydrokinetic, bond strength of, Jan./Feb. 32
- primary
  - in adult dentition, etched porcelain veneer for restoration of, Sept./Oct. 222
  - restorations, dentin bonding agent under, Jan./Feb. 45
  - restorations, glass ionomer cements in, Mar./Apr. 68-69
- related factors in deciding whether to retain or extract a tooth, Mar./Apr. 58
- traumatized, apexification without treatment, case report, July/Aug. 189-190
- wear
  - aging and, Sept./Oct. 204
  - etiologies, review of, Jan./Feb. 10

Teflon-coated sonic scaler inserts, July/Aug. 167

Temporomandibular joint

- chronic, model for predicting, Jan./Feb. 46-47
- derangements, arthroscopic treatment of, July/Aug. 196
- discectomy, long-term MRI findings after, Nov./Dec. 291-292
- disk displacement, evaluation and management, Mar./Apr. 72
- dislocation, recurrent, treatment, Nov./Dec. 290-291
- disorders, medical-legal issues in, Mar./Apr. 72-73

dysfunction, feasibility of interior lateral pterygoid muscle palpation in, Sept./Oct. 245

function, effect of mandibular osteotomy on, July/Aug. 186

Tetracycline

- coating of ePTFE barrier membranes, Jan./Feb. 38-39
- resistance of subgingival microflora in periodontitis, May/June 138

Tetric Ceram, effect of two-step polymerization on, Nov./Dec. 276

Thalidomide, for AIDS-associated oral ulcers, May/June 107

Theft, in dental practice, preventing, Sept./Oct. 223

Thiuram-related contact dermatitis, mistaken for local anesthetic reaction, Mar./Apr. 67

Tic douloureux, diagnosis and management, July/Aug. 164-165

Ti-Core

- fluoride release from, Nov./Dec. 276-277
- titanium-reinforced composite, retention value of, Nov./Dec. 270

Tips, disposable, for air/water syringes, Mar./Apr. 83

Tissue

- connective, graft, for gingival recession, results, May/June 139
- engineering and its relationship to evolution of dentistry, Jan./Feb. 4-5
- hard tissue laser for caries removal and cavity preparation, Sept./Oct. 210
- periodontal
  - replacement with gingival prosthesis, Jan./Feb. 17
  - vasoconstrictive effect of smoking in, July/Aug. 166
- regeneration, guided
  - for gingival recession, results, May/June 139
  - when membrane design prevents bacterial contamination, effect of postoperative antibiotics on osseous healing in, Jan./Feb. 38
- soft (see Soft tissue)

Titanium

- ceramic crown systems, esthetic outcome of, Jan./Feb. 41-42
- implant surfaces, effect of lasers on, Nov./Dec. 259
- nickel-titanium files, examination before and after use, May/June 127
- reinforced composite, Ti-Core, retention value of, Nov./Dec. 270

TMJ (see Temporomandibular joint)

Tobacco (see Smoking)

Tocopherol, in chemoprevention of laryngeal dysplasia, Jan./Feb. 35

Tomography

- computed
  - guidelines for potential implant sites, Sept./Oct. 242-243
  - preoperative, and implant success, July/Aug. 159-160
  - conventional, guidelines for potential implant sites, Sept./Oct. 242-243

Tongue

- brushing, effect on sense of taste and smell in elderly, Mar./Apr. 67
- fissured, in type 1 diabetics, Sept./Oct. 214

Tooth (see Teeth)

Toothache, differential diagnosis, Jan./Feb. 16

Toothbrush

curved-bristle, plaque removal by, Sept./Oct. 205

design, improved by laboratory research, Nov./Dec. 254

wear and plaque removal, May/June 148

Toothpaste, desensitizing, for dentin hypersensitivity, Mar./Apr. 68

Toxin, botulinum, for severe bruxism, May/June 135

Tramadol/flurbiprofen, for pain in endodontic emergency patients, Jan./Feb. 35-36

Transplantation

bone marrow

periodontal status after, July/Aug. 190  
for severe combined immunodeficiency, severe dental abnormalities after, Sept./Oct. 215

gingival surgery after, need for supplementary steroids in, Jan./Feb. 40

Trauma, dental, anesthesia-related, risk factors, prevention, and management, July/Aug. 185

Traumatic ulcers, in type 1 diabetics, Sept./Oct. 214

Traumatized tooth, apexification without treatment, case report, July/Aug. 189-190

Triamcinolone, topical, for recurrent aphthous stomatitis, May/June 109, 110

Trigeminal neuralgia, diagnosis and management, July/Aug. 164-165

Trust, building patient trust in fairness of fees, Mar./Apr. 79

Tumors, accessory parotid gland, Sept./Oct. 235-236

Tungsten carbide burs, effect on endodontic access in all-ceramic crowns, July/Aug. 176-177

## U

Ulcer(s)

mucosal, differential diagnosis, Jan./Feb. 14  
oral, AIDS-associated, thalidomide for, May/June 107

palatal, in Sweet's syndrome, July/Aug. 164  
traumatic, in type 1 diabetics, Sept./Oct. 214

Ulcerative

conditions, necrotizing, in HIV, effect of protease inhibitor therapy on, May/June 134  
stomatitis, chronic, diagnosis and treatment, May/June 107-108

Ultrasonic device

and hand instrumentation to remove broken endodontic instruments, Sept./Oct. 229  
passive activation effectively cleans canals, Mar./Apr. 81

## V

Varnishes

chlorhexidine, prevention of approximal caries with, July/Aug. 189

fluoride

evidence supports use of, July/Aug. 178

prevention of approximal caries with, July/Aug. 189

Vasoconstrictive effect, of smoking, in periodontal tissues, July/Aug. 166

Vasoconstrictor, drug interaction with  $\beta$ -blocker, Mar./Apr. 90-91

Vegetables, colorful, nutritional benefits of, Jan./Feb. 26

Veneers

porcelain

etched, for restoration of primary teeth in adult dentition, Sept./Oct. 222

laminate, high success rate for, May/June 128

provisional, polyurethane adhesive and dual-curing luting cement for, Jan./Feb. 30-31

Vertical dimension, of occlusion, July/Aug. 171  
Vicoprofen, after third molar extraction, Sept./Oct. 239-240

Videoconferencing, in dental practice, May/June 124

Vinyl

gloves, permeability by alcohol disinfectant, May/June 130

polysiloxane impression materials, recent improvements in, Jan./Feb. 20

Vioxx, for postoperative dental pain, May/June 112-113

VIP light, Jan./Feb. 21

Virus

hepatitis G, occupational risk of, Mar./Apr. 65  
immunodeficiency, human (see HIV)

Vitrebond, biocompatibility with pulp, July/Aug. 180

Vitremer

esthetic outcome, Jan./Feb. 44

fluoride release from, July/Aug. 181-182

## W

Warfarin, and dental surgery, debunking myths of, Mar./Apr. 66

Water

-based luting agents, evaporation alters qualities of, Sept./Oct. 235

damage in dental practice, preventing, Sept./Oct. 223

electrochemically activated, in dental unit water lines, Jan./Feb. 31

immersion, long-term, strength of relined denture base polymers after, Sept./Oct. 241

line

bacteriologic filters most effective when placed close to air/water syringe, Mar./Apr. 82-83

contamination, Nov./Dec. 293

quality, dental unit, improvement in new millennium, July/Aug. 152-153  
spray mechanism in handpieces, Jan./Feb. 7-8

Wear

composite, effects of alcoholic beverages on, May/June 131

of resin luting systems, Mar./Apr. 63  
tooth

aging and, Sept./Oct. 204

etiologies, review of, Jan./Feb. 10

Weibull analysis, compares performance of various cements with cast full-coverage crowns, Sept./Oct. 233-234

Wet bonding, science of, Mar./Apr. 63

Whitening, of endodontically untreated calcified teeth, conservative approach to, Sept./Oct. 207

Women

college, Jan./Feb. 27

older, systemic osteopenia and periodontal attachment loss in, Jan./Feb. 39

Worker, dental, occupational HIV transmission to, Jan./Feb. 12

## X

Xenoestrogens, in dental materials, use in children, May/June 114-115

## Y

YAG laser, Nd., effect on titanium implant surfaces, Nov./Dec. 259

## Z

Z100

methacrylic acid release from, Sept./Oct. 210-211

shear bond strength to dentin, May/June 144-145

wear, effects of alcoholic beverages on, May/June 141

Zeta, color stability of, May/June 130-131

Zinc

-oxide eugenol cement, pulp healing after capping with (in rat), Nov./Dec. 292

phosphate cement

with cast full-coverage crowns, Weibull analysis of performance of, Sept./Oct. 233-234

evaporation alters qualities of, Sept./Oct. 325

excess residual, around implant-supported crowns, complications of, Mar./Apr. 60

polycarboxylate cement qualities, effect of evaporation on, Sept./Oct. 235
